There's a *faster* way to buy

No matter how many orders you place per day, **EASY Buy** will turn all of them into one.

Procurement just evolved.

MERCELL

A buyer platform for efficient companies

EASY Buy is a cloud-based ordering system that changes the way companies buy goods and services for their operation.

Now your buyers can order whatever they need in their own system without wasting time on webshops. *It's so much faster*.

The EASY way to buy

Upload item lists of goods and services from all your favorite suppliers.

Shopping in **EASY Buy** will feel like you're placing **one** order in a webshop.

EASY Buy splits it up and generates a unique order for each supplier.

Create approval flows, check order status, and manage your contracts.

All buyers can star their favorite orders and rebuy them in seconds.

Your very own marketplace

By creating unique starred item lists, all your buyers can place cross-supplier orders in minutes instead of hours.

You control the selection to maintain the highest quality at the lowest price.

MERCELL

Cloud CM system included

A contract management feature notifies you of all contract meetings and expiry dates, but it's also a strategic tool that ensures transparency.

When you know the needs of all your buyers in each division of your company, you can use your data to negotiate better prices and make area-specific deals in different divisions or countries.

To start buying, press play

Say when, and **EASY Buy** can be up and running in a day, onboarding session included for all your buyers, contract managers, and stakeholders.

Modern automation software needs to be user-friendly, cloud-based and ready to run. **EASY Buy** is all of this, and more. Its strength lies in the simplicity of its framework and concept.

It's just software. But it changes the game.

Independent procurement

EASY Buy creates value from day one and is the simple choice in a market full of complexity.

When we flip the switch, **EASY Buy** is all yours. It's time-saving software for real people, not experts, so anyone can run it and save time. Should you need support, it's free, but you probably won't need it.

We charge a flat yearly fee for everyone, and there are no surprises later on.

The five benefits of EASY Buy

EASY Buy is automation software that lowers work time and expenses on any single purchase.

The more your buyers use it, the more you'll raise your bottom line.

Buy faster

With faster purchases comes a natural cost reduction and more free time for your buyers.

Lower prices

By deciding what your buyers can buy, you can negotiate better prices on all goods and services.

Manage orders

You can set demands for each order, check the order status in real-time, and contact suppliers.

Know your contracts

EASY Buy has its own contract management module to keep track of terms and expiry dates.

Work smarter

Software automation is what we do for a living and it's what we offer you. **More efficiency in less time.**
